

# Jerome Comprehensive Plan - Public Survey Summary

## Overview

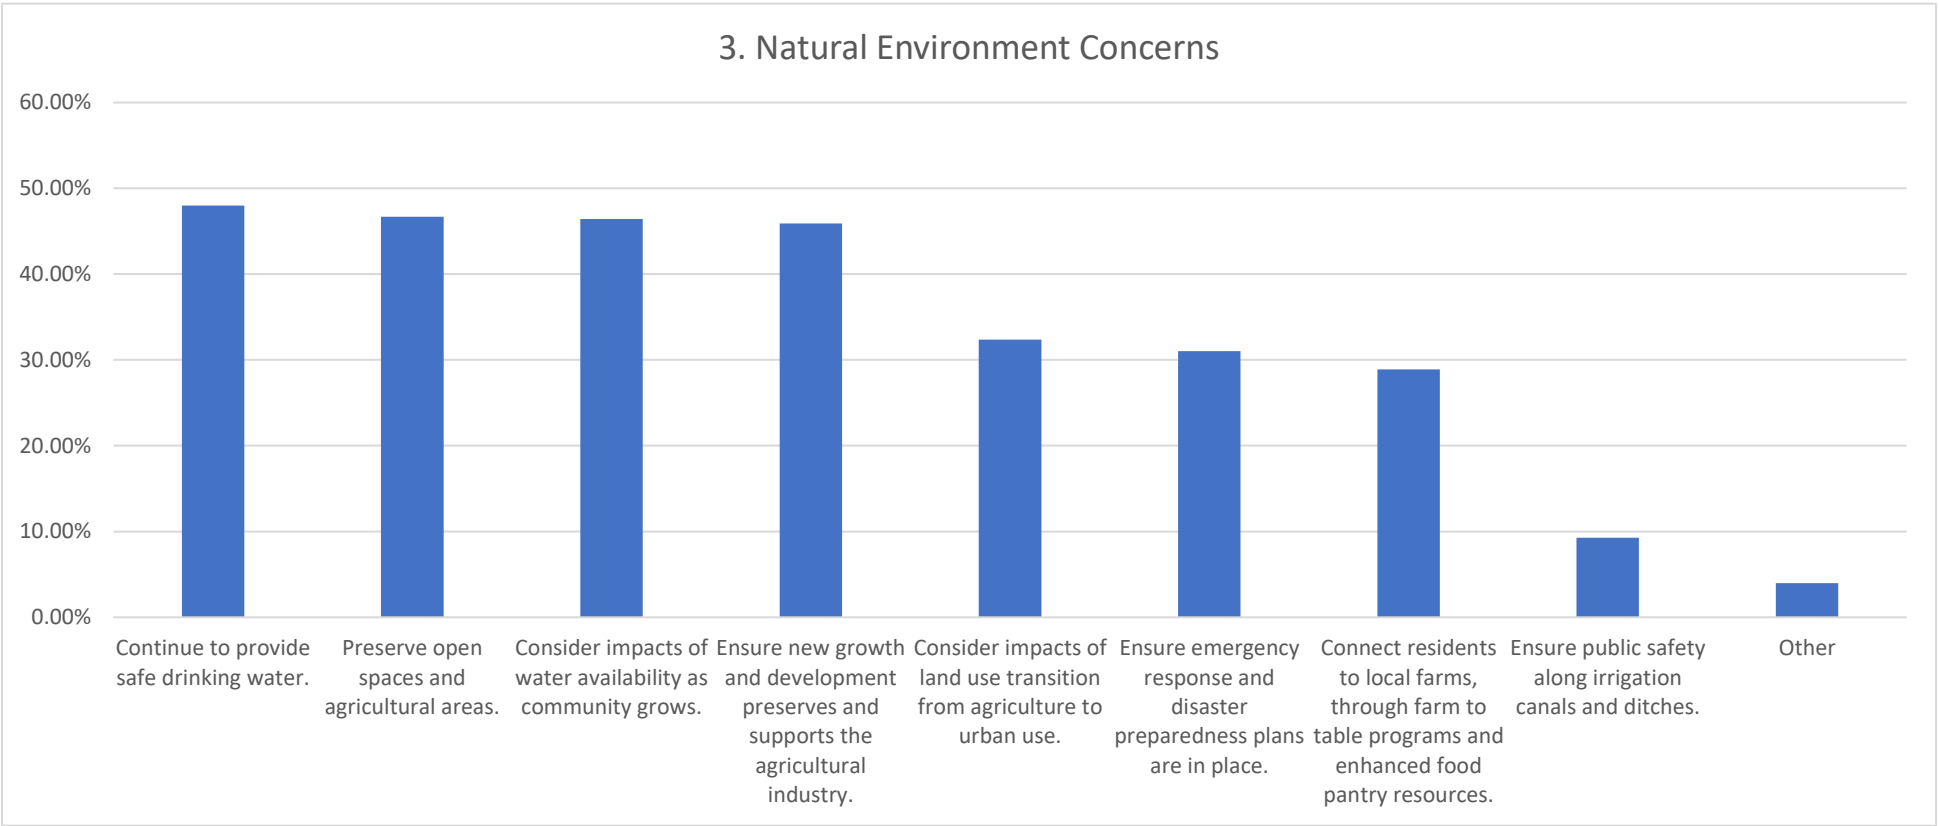

To better inform the Goals, Objectives and Strategies of the comprehensive plan, the team developed and distributed an online survey (in English and Spanish) to the community at-large. The survey was open from June 14 to July 17, 2022. The survey garnered 377 English responses and 4 Spanish responses. The survey was advertised on the City's Facebook page, through the project's Community Advisory Committee members and their networks, and emails were sent to local English and Spanish media as well as the Chamber of Commerce. The results of the survey are below.
